Add rounded corners to any amount • \$10.00

Extract photo from background for silhouette cards • \$15.00

WHAT IS UV COATING VS MATTE FINISH?

UV is a high gloss reflective coating. It makes colors look more vibrant and is water resistant. It is only available on gloss paper stock and can be done on one or both sides. You cannot write on UV coating. If you choose UV on 1 side only, the non-UV side can be written on with most standard ink pens.

Matte is a dull coated paper which tends to prevent light from reflecting off the card. It has a much more subtle look, resists fingerprints and can be written on with most ink pens.

HOW LONG WILL IT TAKE TO GET MY CARDS?

You will receive your cards 3-4 days after the final proof is approved. Some custom stocks may take a little longer. Rush orders are available, call for information and cost.

DOES LCM OFFER DIFFERENT CARD STOCKS?

YES! We have many other types, sizes, paper stocks, and finish variations if you wish to have a unique look or feel to your card.

SILK LAMINATED - Silky smooth to the touch with a matte appearance.
